

Bedroom Cleaning should include making the bed, dusting and polishing furniture, wiping light fixtures/walls/fans, and floor cleaning.

Cleaning Supplies Checklist

Here are a few key supplies you should include on your supply checklist:

○ Microfiber cloths

Professional maids love these cloths because they do a great job of removing dirt and dust from exposed surfaces and cracks. You can use microfiber cloth to wipe down the following bedroom surfaces: nightstands, bookcases, dressers, TV stands, headboards, and TVs. They are also great for cleaning mirrors and decorative accessories.

○ Microfiber mop

If you have hard floor surfaces in the bedroom, they will have seams and grout in which dirt and dust can accumulate. A microfiber mop will do a great job of cleaning the entire floor surface, leaving your hard surface floors sparkling clean. Good news! These mops are washable and reusable, lasting for months in the process.

○ All-purpose cleaner

The commercial-grade all-purpose cleaning chemicals that are used by professional maids are ideal for cutting through all kinds of dirt, grease, and grime. It can be used to clean appliances, counters, cabinets, and floors. These products are safe and eco-friendly.

○ Glass cleaner

A reliable glass cleaner will provide clean mirrors and windows without leaving streaks, fingerprints, and smudges.

○ Quality vacuum

A quality vacuum is necessary to dig deep into carpet and rug fibers to get at the embedded dirt and dropped food particles. One with nice attachments will allow you to vacuum curtains and furniture cushions, plus reach under furniture.

○ Other necessary supplies

A good broom, rubber gloves, and scented furniture polish.

Bedroom Cleaning Checklist

Since so much time is spent in your bedrooms, you probably want to make sure they are clean enough to keep you and the family safe and comfortable.

○ Wiping walls and baseboards

It's important to remove dust and cobwebs from the ceiling, walls, and corners.

○ Clean light fixtures

Dust desk-top and hanging light fixtures as well as ceiling fans.

○ Dust furniture

Nightstands, the TV, television stands, dressers, and headboards. We would also wipe down decorative items like alarm clocks, picture frames, and table-top trinkets.

○ Polish wood furniture

To keep your wood furniture looking healthy and smelling clean we would use a microfiber cloth to remove dust, fingerprints, and streaks, following that with high-quality polishing.

○ Floor cleaning

This would include vacuuming carpets/rugs and sweeping/mopping hard floor surfaces (wood, tile, or laminate).

○ Declutter the room

Clear and organize dressers, nightstands, bookshelves, vanities, and shoe racks. Everything would be put in its proper place.

○ Empty trash

Remove the trash and clean out the wastebaskets.

○ Change bed linens

Replace the existing bed linens with fresh linens as requested and make the bed.

Chores to be included on a deep bedroom cleaning checklist would be cleaning under beds and dressers, window and window covering washing, and carpet shampooing.
